KNX HOME AUTOMATION, A SAFE BET

KNX is an international standard under which more than 500 manufacturers develop products that speak the same language. This is one of the great advantages of a KNX installation or Home Automation System: if the manufacturer disappears, you will not be left stranded, but will have the support of more than **500 manufacturers** who design and sell devices with which to control your home.

Compared to low-cost systems or DIY (Do-It-Yourself Systems), smart plugs and push buttons that can be easily purchased on the internet, KNX has the ability to centralize all the control of the house in a single system. This means that, **from a single application, you can control all the functions of your home: heating, air conditioning, lights, blinds, shutters, blinds, purifier ... All from the same place without relying on wifi!**

- Zennio has more than 19 years in the sector, which translates into **stability and quality**.
- We work with the **main Spanish developers**: Vía Célere, Neinor Homes, Aedas Homes, Amenabar, Grupo Lobe, Metrovacesa, Pryconsa.
- Global presence with Zennio Subsidiaries in the UK, Germany, France, Mexico & The Dominican Republic with operations in 117 countries and Middle East.
- We have had the pleasure of equipping **luxury homes and villas of people of today**.
- Manufacturer **100% Spanish**, located in Toledo and with a team ready to dominate the world.

Zennio

**From the comfort
of your bed.**
YOUR HOME, YOUR TEMPLE

All KNX scenes are customisable
and can be configured according
to the individual's habits.

MASTER LIGHT

Zennio allows you to control the lighting in your home, simplifying the task of turning off all the lights before going to sleep. It not only offers you comfort, but also the security that guarantees that no space is unnecessarily illuminated. Solutions that save you time, energy, and give you the peace of mind you deserve to enjoy a restful sleep without worrying about the lights being left on.

SCENES

Quickly customize your bedroom lighting and shades according to your habits with our innovative smart control technology. With these customizable options, you can easily tailor your sleeping environment to your individual needs, improving your quality of life and overall well-being.

SLEEP SCENE:
Turn off all the lights
and lower the blinds.
Prepare for a peaceful
and restful sleep.

LOVE SCENE:
Dim the lights for the
sweetest moments,
creating an intimate
atmosphere with just
one setting.

WAKE UP SCENE:
Set the wake-up time to
let in the first rays of
morning light by raising
the blinds slightly.

The sun gives life to your plants, don't take it away!
YOUR HOME, YOUR TEMPLE

TIME SCHEDULES

Time schedules allow you to raise the blinds in your home at certain times of the day. This is useful, for example, so that your plants can receive sunlight and your home remains full of life every day of the year, wherever you are.

•Zennio

Don't give up having plants in your vacation home!

Home sweet home,
warm when I get there
YOUR HOME, YOUR TEMPLE

Zennio

REMOTE CONTROL

Access your home from anywhere
in the world. Just with an App.

- Turn on the heating or air conditioning a few hours before you get home. This way, you can enjoy a perfect temperature when you arrive!
- You can view the IP or CCTV cameras from your App, check if you have left the lights on, the blinds down or if there is an unexpected consumption: the hair straighteners!!!!

•Zennio

Alexa, put the scene in **cinema mode!**
YOUR HOME, YOUR TEMPLE

VOICE CONTROL

From the lights to the blinds to the climate, everything is at your voice's fingertips, without even having to get up from the sofa! Make convenience your new standard and make every day more efficient and relaxing with Zennio - start asking Alexa for what you need for your home!

Forget about getting it right!
YOUR HOME, YOUR TEMPLE

The one on the
right, the one on the
left, the second one
if you count from
the right... nooo!
Not that one!

You'll always get it right!
YOUR HOME, YOUR TEMPLE

You will no longer have to worry about guessing or memorising which switch turns on which light. Zennio devices offer you an intuitive way to identify and select the desired light, giving you greater convenience and making it easier to control the lighting in your home.

Childproof plugs
YOUR HOME, YOUR TEMPLE

Relax and don't worry. Forget having to be constantly on the alert for your children touching the sockets at home. Enjoy life at home, knowing that the little ones are safe and secure at all times.

Safety for children
YOUR HOME, YOUR TEMPLE

Control the activity, switch on and off the plugs that are child-safe and forget about unpleasant surprises.

They are totally safe!

Zennio

Open the video door entry system
from your mobile phone
YOUR HOME, YOUR TEMPLE

Imagine receiving a food delivery when you are not at home. With Zennio's technology, you will receive a call on your mobile phone as soon as the delivery driver arrives. From the comfort of your device, you can open the door for him to access the garden no matter where you are, ensuring that your order arrives safely and in a timely manner. This smart system integration offers a convenient solution for receiving deliveries, giving you peace of mind and convenience in your day-to-day life.

•Zennio

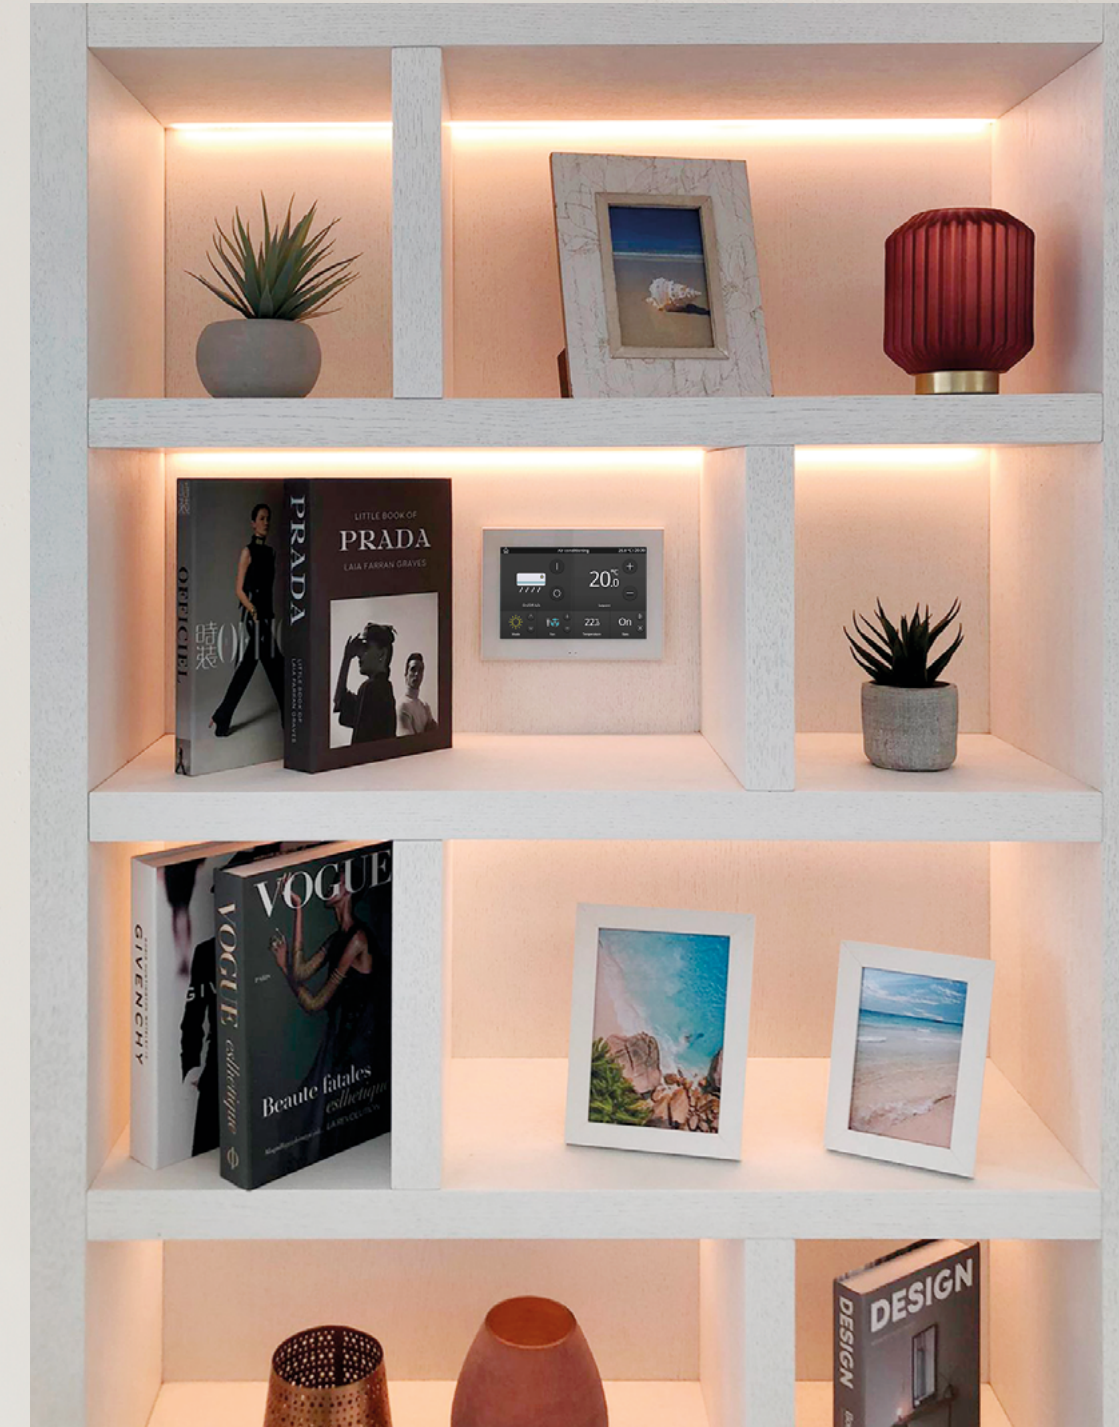

One screen to control them all YOUR HOME, YOUR TEMPLE

You will have all the control of your home on a single screen.

- Climate control (AC and heating)
- Visualisation of IP or CCTV cameras
- Video door entry system
- Blinds and light control
- Voice control
- Creation of atmospheres or moods via Scenes
- Time schedules,
e.g. for irrigation or pool purification

Debunking myths YOUR HOME, YOUR TEMPLE

- The house doesn't do things on its own, nor does it go crazy, nor do you stay outside without being able to enter.
- Home automation makes your life easier little by little in simple, everyday actions such as raising a blind or turning off a light.
- The technology will not make your home look like a space house, a house of the future, nothing like that! It is a house of today with the comforts of the 21st century.

Your home, your temple.
